GROUP

Mother Loss is a life long grief journey. The scars go deep and the pain is relentless. It affects every aspect of a woman's being, regardless of age of loss or how the loss occurred. The hole is deep and filled with many emotions. This support group will focus on the journey and the difficult obstacles that get in the way to healing.

The purpose of the Motherless Daughters Ministry Support Group is to create a safe place where Motherless Daughters can deepen relationships and develop a support network for continuous healing. Regardless if you lost your mother through death or through absence, you do not have to be alone.

We offer our support either online or onsite. Check the website for times and dates.
