

Pulling Back the Curtains: Co-Vid Update

Pulling back the curtains, I want to give you an inside look at ALL that is happening behind the scenes.

Everyone knows how the untimely virus knocked the socks off the programming planning for the Motherless Daughters Ministry. Scrambling to do what we could at a moment's notice, all onsite programs were postponed and online programming continued. Now we must plan how we can serve women differently.

Thank goodness, we were a virtual organization before Co-Vid hit. But our learning curve has exploded as we traverse into new horizons. We are working harder than ever behind the scenes!

PROGRAMMING

First about the programs we offer, we are working hard to reformat our programs to fit different learning modalities. Think about these programs where participants are either in groups or as individuals. Each of our programs will be reformatted to fit the following:

- Onsite for groups
- Online for groups
- Online individual self-paced e-learning with 1:1 coaching option available.

Here is a snapshot of what the programming will look like:

- **The 12-week Journey class**
